# Grade 4

Name: \_\_\_\_\_

## Short Division

Solve the equations.

1.  $5 \overline{)455}$

2.  $3 \overline{)813}$

3.  $8 \overline{)45}$

4.  $7 \overline{)399}$

5.

7.  $6 \overline{)846}$

8.

10.  $7 \overline{)829}$

11.

13.  $6 \overline{)255}$

14.

## Word Problems

Answer the word problems. Show your working out and write your answers in full sentences.

1. There are 135 students in a school and only 5 classes. How many students can be in each class?

2. Peter made \$680 and wants to share with his 7 other friends. That's an 8 way split. How much do that each get?

3. Jackson order some pizza for himself and 6 others. They were starving so they ordered a lot! There were 224 slices. How many slices did they each get?

## Short Division Puzzle

Use short division to answer the questions and color the rainbow & mountains!

221 r2 = Blue 135 = Yellow 236 r2 = Pink

141 = Red 21 = Green 181 = Orange 161 = Orange

# Word Problems

Answer the word problems. Show your working out and write your answers in full sentences.

4. Mary worked for 8 days and made \$764. How much did she earn each day?

---

5. A class of students were going on a field trip. They were travelling by van. Each van could take 6 children. If there were 135 students, how many vans would they need? How many extra seats would there be?

---

6. Jack baked 966 cookies over a 6 day period. How many cookies did he bake each day?

# Word Problems

Answer the word problems. Show your working out and write your answers in full sentences.

1. There are 135 students in a school and only 5 classrooms. How many students can be in each class?

There can be 27 students in each class.

2. Peter made \$680 and wants to share with his 7 other friends. That's an 8 way split. How much do that each get?

Preview

They each get \$85.

3. Jackson order some pizza for himself and 6 others. They were starving so they ordered a lot! There were 224 slices. How many slices did they each get?

They each get 32 slices of pizza.

Answer the word problems. Show your working out and write your answers in full sentences.

4. Mary worked for 8 days and made \$764. How much did she earn each day?

She earned \$95.50 each day.

5. A class of students were going on a field trip. They were travelling by van. Each van could take 6 children. If there were 135 students, how many vans would they need? How many extra seats would there be?

They would need 22 vans and there would be 3 extra seats.

6. Jack baked 966 cookies over a 6 day period. How many cookies did he bake each day?

He baked 161 cookies each day.
